The **administrative fee** is the monthly fee for maintaining the HSA Investment Account. This fee will be debited from your HSA Cash Account the following month.

The **phone-assisted trading fee** is the fee for placing a mutual fund trade order over the telephone using registered investment representatives employed by J.P. Morgan Institutional Investments Inc.

All mutual funds have **management fees** that are disclosed by prospectus. These fees include, but are not limited to, shareholder servicing fees and 12b-1 fees. Mutual funds offered were selected based on expense ratios, among other criteria.

The JPMorgan International Equity Fund has a 2% **early redemption fee**, which applies to redemptions made within 60 days of purchase. All other available funds are offered without redemption fees.

In addition to early redemption fees, mutual funds have rules to prevent excessive trading, which limit investors in the number of allowed short-term, roundtrip (a purchase or exchange into a fund followed by a redemption or exchange out of the same fund) trades. Investors whose trades exceed these rules are subject to rejection of their transaction(s). Rules vary by mutual fund family.

- 1 Investment in bond funds is subject to risks, especially interest rate risk. As interest rates rise, the prices of bonds will generally fall, and vice versa.*
- 2 "S&P 500" is a registered service mark of Standard & Poor's Corporation, which does not sponsor and is in no way affiliated with the Fund.*
- 3 Small capitalization funds typically carry more risk than stock funds investing in well-established "blue-chip" companies since smaller companies generally have a higher risk of failure. Historically, smaller companies' stock has experienced a greater degree of market volatility than the average stock.*
- 4 International investing involves a greater degree of risk and increased volatility. Changes in currency exchange rates and differences in accounting and taxation policies outside the U.S. can raise or lower returns. Also, some overseas markets may not be as politically and economically stable as the United States and other nations. The Fund is also subject to the additional risk of non-diversified "regional" fund investing.*
